#### **9. Assessment of the Company's and the Capital Group's position**

The Company's sales revenue generated in 2020 was PLN 849,649 thousand. The Company's revenue decreased by 9% compared to the figure reported in 2019 and increased by 11% compared to the figure reported in 2018. In 2020, the Company's gross margin improved and was 3.3% (2.5% in 2019). The Company reported positive results at all other profit levels. ZUE is one of major contractors of the National Railway Programme until 2023 (the "NRP") – the modernisation project of key significance for the Polish railways. In 2019-2020, the value of services provided by ZUE was more than PLN 800m owing to the Company's significant involvement in the execution of projects under the NRP. In 2020, the Company performed

several railway contracts won on the difficult market of 2016-2017. They were the low-margin contracts and the reasons for this included unpredictable factors beyond the Company's control such as growing costs of project execution and no real price indexation. The Company repeatedly informed about this fact in current and financial reports. Many of these contracts are scheduled for completion in 2021.

**In 2020, the Company won the new contracts with the total value of approx. PLN 269m. At the date of publication of 2020 annual report, the total value of ZUE's backlog was approx. PLN 1.47bn. It mainly included railway contracts but was diversified by increasing the number of urban contracts. Between November 2020 and the date of publication of 2020 annual report, the Company won the three contracts on the urban market, including two "build" contracts and one "maintain" contract worth in total approx. PLN 208m. The project completion dates on the urban market are shorter and do not include design activities. Accordingly, the risks relating to project execution are much smaller when compared with the risks associated with railway contracts.**

PKP PLK, the entity dealing with railway projects in Poland, said it planned to announce by the end of 2021 the tenders worth approx. PLN 17bn to carry out the final projects under the NRP and the projects under the new 2021-2027 EU perspective. There will be mainly the "build" projects. This should limit the Company's exposure to unexpected changes in production prices. ZUE intends to take an active part in the said tender procedures and is hoping that the contracts will soon be awarded.

Compared to 2019, ZUE's gross profit on sales grew by PLN 4,949 thousand to PLN 28,023 thousand at the end of 2020.

The Company reported other operating income of PLN 2,926 thousand – up by 169% compared to the analogous period of 2019. Other operating expenses amounted to PLN 1,789 thousand and increased over the year by 130%.

Operating profit generated by ZUE in 2020 was PLN 9,782 thousand (year-on-year increase by 55%).

ZUE's financial income increased over the year by 16% and stood at PLN 1,705 thousand. ZUE's financial expenses amounted to PLN 1,452 thousand – down by 21% compared to 2019.

In 2020, the Company reported the net profit of PLN 4,362 thousand (year-on-year increase by 39%).

After they have analysed the documents and the actual condition, the Supervisory Board state that as regards liquidity and access to external financing sources, the financial position of ZUE S.A. and the Group does not pose any risk to financing their operations in 2020.
